YOUR JOURNEY TO AN ENHANCED LIFE  
BEGINS WITH MEDIKA

# WELCOME

The Medika Clinic is on a mission to redefine the relationship between health, aesthetics and lifestyle medicine.

By providing a premium service that connects all three services in one place, the clinic intends to revolutionise the way we look at our health by growing an understanding that how we feel on the inside is intrinsically connected to how we look on the outside.

Launched in Manchester's stylish Spinningfields district in 2022, The Medika Clinic is founded on a simple belief: that to look your best you must also feel your best.

Setting itself apart from other clinics, Medika's doctor-led team, headed by Medical Director and co-founder Dr Kamran Amjed focuses on inner health and outer aesthetic equally by championing an all-encompassing approach to health and wellness – opening its members up to a whole new way of living that truly enhances their quality of life.

With a focus on natural-looking aesthetics, Medika's team is dedicated to delivering unparalleled results time and time again by constantly keeping on top of the latest industry-leading innovations, technologies and products.

Services range from mental health and wellness consultations to aesthetics, skincare, and laser treatments, because at The Medika Clinic health is at the heart of everything we do.
